

DATA SOURCES

The Academic Administrative and Auxiliary Program Review Steering Committee and subcommittees (Mission, Quality, Marketability, Auxiliary and Finances) are using numerous sources of data as they develop recommendations. No single source of data, be it quantitative (numbers) or qualitative (words) will provide a complete picture, and not any single source can capture the many unique challenges and strengths at Puget Sound. The following list includes the data sources (some of which are still being gathered) to which the AAAPR Steering Committee will refer. This list is not finite; additional data sources will be added as they are identified by the subcommittees.

- Administrative Units Annual Reports
- Peer data request (Stevens)
- Administrative offices questionnaire
- Stevens Survey
- Regulatory Compliance
- Academic department Questionnaire
- 7-year curriculum reviews
- Academic department evaluation guidelines
- Institutional goals (strategic plan)
- Accreditation Standards
- Great Colleges to Work for survey
- Student Success Survey of Educational Goals
- Staff Turnover rate trends
- Diversity Strategic Plan
- Course Enrollment
- Section Fill Rates
- Majors: Enrollment
- Minors: Enrollment
- Majors: Degrees earned
- Minors Degrees Earned
- Persistence in Major
- Retention and Graduation Rates - Grad Programs
- Retention and Graduation Rates - Ugrd Programs
- Admitted Student Review
- Market Strategy, Graduate Programs
- Double Majors
- Units taken by program
- Tuition revenue by program
